CITY INTELLIGENCE [For Additional City Intelligence see F.fth Page.]

THE ADVANCEMENT OF PHILADELPHIA. -The very rapid and unprecedented expansion of our city must be as gratifying as it is surpris-ing to every Philadelphian. Amid all the dis-paragements resulting from a prolonged war, and the consequent basiness and monetary derangements, she has grown apace—advancing until one suburb after another has been linked to the old municipality by lengthened streets.

Unlike New York, our city is unfettered any natural limit. From the function of the Delaware and Schuylkill, the triangle gradually widens in a northerly direction, affording space to keep up its progressive growth in all coming time; and it is in the northern section we find the most marked improvements, extending east and west, presenting almost an even front, as field after field and old farms are swallowed up by splendid rows of houses and large manufac-Where, but a lew years ago, herds were growing and the yellow grain waving, ponder-ous business establishments are reared; the clatter of looms, the rattle of machinery, and the hum of labor salute the ear.

But one impetus is needed to reclaim the entire "Neck," and render the shores of both the Delaware and Schuylkill one confinuous commercial avenue to the junction. Should our Navy Yard be removed to League Island, which more than probable, a quarter of a century will find the entire southern portion of our city built up with handsome streets, and the old "l'oint House" will be looked upon with rever ence as a relic of the past. We might add that the business and commercial necessities of Phila-delphia demand the immediate removal of the Navy Yard to League Island. As it now stands, it is only a stumbling-block to the advancement or our city.

Another evidence of the rapid change going on in Philadelphia can be to and in the increase of stores and business places, in localities which were formerly occupied by the dwellings of quiet and retired crizens. The western portions of Arch and Walnut, Chesnut and Market streets, are gradually becoming business marts; and many more of our north and south streets present squares of stores instead of private houses. The population is thus forced, step by step, to give up old houses in the city proper to business, and to seek the more beautiful and convenient residences of the suburbs. But they are amply repaid for the change.

Hundreds are now residing in Germantown, Manayunk, Frankford, Bridesburg, Darby, etc., who reach their stores as early, and their homes as late, as may be necessary to their business interests. Indeed, not a few have been driven by the expansion of possilation to seek the vil-lages on the Jersey side of the river. It will be but a few years at most when all the towns named above will be united by compactly built

up streets to the old city.

The increase in the commercial importance of Philadelphia, however, is a marked teature of her progress. The greatest obstatle, incident to cold weather, no longer impedes business. Icebeats, innumerable steam-turs, and ponderous ferry boats now keep the river open. This winter, with the thermometer 13 degrees below zero, navigation was but temporarily interrupted; and, if longer closed, we now have railroads on both the Delaware and New Jersey shores of the bay, which can afford immediate relief.

These facts seem to be fully appreciated by New York, if we are to judge from the persistence with which she attempts to cripple all improvements leading to Philadelphia, and her industrious efforts to divert projected railroads When the capitalists of New York are content to increase the distance of a road for the purpose of avoiding Philadelphia, we may rest assured the growing prosperity and the increasing commercial and business importance of Philadelphia is just as well understood abroad as at home, and by none better than lealous Gotham.

TAXATION REFORMS .- The following is the substance of the draft of an act of Assembly to enlarge the powers and promote the usefulness of the Board of Revision of Taxes, which the City Councils last Thur-day directed to be urged upon the members of the Legislature. The first section provides that the Board of Revision shall exercise all powers heretofore conferred upon the Boards of Appeal and Re-vision of the city of Philadelphia; also, those conferred upon the Commissioners of said city, and the County Commissioners of the different counties of this Commonwealth, in relation to the assessment and collection of taxes within the county of Philadelphia, and the correction of all valuations and returns therefor; also, re ceive returns of assessors, procure assessment books, and cause the duplicates to be made; draw warrants for pay of assessors, and to have exclusive custody and control of all books relating to the assessment of taxes. The third sec tion provides that the assessors shall make a second return of the value of all new buildings which shall have been finished, and deductions for destruction by fire, and no included in their previous return, on or before the first day of November in each year.

THE COST OF MARKETING.-Within the partiew days beef has fallen two or three cents per pound. The wholesale prices of mutton have decreased considerably. The stock on hand is very large, more so than has been the case for several months. Pork continues about the same as last week, as does pouttry and most or the vegetables. We give the following quotations for to-day:-

HIGHWAYMAN SHOT .- A few mornings since, as Mr. John Turner, a baker, was returning in his wagon from Chester, he was accosted by three highway robbers in a wagon on the Baltimore pike, about three miles below Gray's One of the party got out and demanded money. He was asked how much he wanted. The robber reptied \$50. The other two robbers got out of their wagon, and one of them cocked a pistol and commanded Mr. Tirner to "deliver his money." The baker said, "Put your pistol up, and I'll fight the whole three of you." The robbers became impatient, and one of them got on the iron step of the wazon. At this moment Mr. Turner shot him in the stomach. The robber groaned and fell. The horse of Mr. Turner was frightened at the report, and dashed up the road. One of the ropbers fired at Mr. Tur ner; the ball passed through the wagon-cover, but he escaped. After daybreak a large bloodstain was discovered in the ward where the scene had occurred.

IMMENSE PIECE OF MACHINERY,-The following is a description of the largest steam bammer in the United States, just made at Merrick & Sons' foundry, in this city, for the Boston Navy Yard:—There are four pieces of hammer sides, weighing 101,623 pounds; one cylinder of pounds; one cylinder bottom of 7450 pounds; one bottom piece of anvil block of 31,500 pounds; top entablature of do. do. of 26,900 pounds; bit for anyil block of 5660 pounds; do. for cylinder of 4500 pounds; six cast-iron braces, all weighing 4500 pounds; fourteen do. do. washers of 6674 pounds weight; two base plates of 21,000 pounds; holding down bolts and places of 21,000 bounds; holding down boits and places of bol's weighing 7919 pounds; and wroughtiron brace boits, laiders, rading, and boxes of bolts, whose combined weight is 8994 pounds; making a grand total of 246,850 pounds.

or about 123] tons. PRESENTATION.-Last evening Mr. James P. Webb, recented appointed on the detective force, was presented with a first-class revolver and badge, by a number of his friends, at the house of Mr. Samuel Peak, Sixth and Dickerson

THE SEASON OF LENT .- Wednesday week being Ash Wednesday, and the beginning of the Lenten season, the following regulations are issued for the gindance of the fathrul Catholics in this diocese. The ball of the Coteric Blanch-Association, it will be seen, comes off on Ash-Wednesday eve, so that those Catholics or Episcopalmas who attend, will have to get their "retreshments" belore 12 o'clock, or go empty: 1. All the faithful who have have completed their twent; urst year, unless legitimately dis-pensed, are bound to observe the fast of Leat, 2. They are to make one full meal a day, ex-

cepting Sundays. . The meal allowed on Fast days is not to be taken till about noon.
4. At that meal, if on any day permission should be granted for eating flesh, both flesh and fish are not to be used at the same time, evan by

way of sauce or condiment, . . A small retreshment, commonly called and tetion, is allowed in the evening; no general rule as to the quantity of good permitted at this time is or can be made. But the practice of the most regular Christians is, never to let it exceed the fourth part of an ordinary meal.

6. General usage has made it lawful to drink in the morning some liquid, as tea, coffee, or

thin chocolate made with water. 7. Necessity and custom have authorized the

8. The following persons are exempted from the obligation of fasting:—Young persons under twenty-one years of age, the sick pregnant women, or those giving suck to infants, persons obliged to hard labor, and all who through weakness cannot has without great prejudice to their health.

9. By dispensation, the use of flesh meat will be allowed at any time on Sundays, and once a day on Mondays, Tuesdays, Thursdays, and Saturdays, with the exception of the Saturday in Ember week, and the fast four days of Lent. 10. Persons dispensed with the obligation of fasting are not bound by the restriction of using ment only at one meal, on days on which its use is granted by dispensation. Those who are obliged to fast are permitted to use meat only at one meal.

BILLIARD TOURNAMENT.-The contest for the champiouship of Penusylvania was resumed The afternoon exercises opened with vesterday. trial of skill between P. Carme and Mr. Nelms, after which a contest game was played by Robert T. Ryall and H. W. Hewes; the score standing at the conclusion of the contest:— Ryall, 500; Hewes, 238. The former's highest runs being 172, 53, and 43; and the latter's highest 59, 34, and 30; average, 12 10. In the evening Messrs, Carme and Ryail played an exhibition game of 200 points, carons, Mr. Carme winning by 118 runs. Mesers, F. J. Plunket and John B. Bruce concluded the performances with a match game of 500 points; the former scored 500, and the latter 295; average, 13:30, The bighest runs made by Mr. Plunket were 102, 84, and 90; Mr. Bruce, 44, 26, and 19.

THE GERMANTOWN MURDER-BERGER CONVICTED.—The trial of Christian Berger, charged with the murder of Miss Watt, at Germantown, was brought to a close yesterday. Messrs, John O'Byrne and Charles W. Brooke addressed the jury on behalf of the prisoner, and the closing speech was made by District Attor ney Mann. The jury were charged by Judze Allison, after which they retired to deliberate upon a verdict. They were out about half an hour, when they came into court with a verdict of "guilty of murder in the first degree." prisoner took the announcement as coolly as the immense throng of spectators who were present.

OBTAINING GOODS UNDER FALSE PRE-TENSES.—Yesterday atternoon a young man named Raymond Gutzesall had a hearing, charged with obtaining goods under false repre-sentations. He obtained about \$81 worth of col-lars and cuffs from the Lockwood Manufacturing Company, by representing that he had been sent for the same by Messrs, H. Duhring & Co. The accused had been employed by the last-named firm about one year ago. He obtained goods from Messrs, F. S. Hovey & Brother, H. P. & C. R. Taylor, Erasmus C. Pratt, Brother & Co. and Hahn, Fernald & Wetherhold, in like manner. The prisoner was committed to answer.

ACCIDENTS,-Philip McDevitt, while at work yesterday on the bowsprit of a vessel at Port Richmond, fell upon the ice, broke one of his arms, and injured the other. Robert Squires, miner, while at work in a mine in Ca county, Pa., yesterday, had one of his legs broken by a piece of rock falling on him,
